

Open days

See where you could be learning and living

Here are some tips to help you prepare...

1

Plan your day

Review the agenda and decide what you want to find out about.

2

Make notes

To help you compare different universities and colleges afterwards.

3

Get talking!

Speak to current students during your visit.

4

Ask questions (lots of them!)

Check you've got answers to all your questions before heading home.

5

Keep in touch

Get an email address in case you think of more questions you'd like to ask later.
